Truck Mounted Cranes & Aerial Platforms

Pins & Bushes

Hydraulic Pumps

Our Services

MANUFACTURING

We manufacture a full range of hydraulic engineered components and offer comprehensive boiler-making services. Together with our design team we are able to manufacture to our clients design and specifications.

REPAIRS & SERVICE

When a trusted, skilled, hydraulic repairer is integral to your business, you can rest assured that you are in capable hands and have found a partner in Exclusive Hydraulics & Engineering.

OUR WORKSHOP

Our Workshop not only has some of the best talent the industry has to offer. We also boast some of the latest machining equipment that enable us to deliver the best service to our clients.

Quality Assurance

A Total Quality Management (TQM) system is integral to almost any business, none more so than to an engineering firm and our system is ever-evolving in order to attain maximum quality perfection.

This means that at a minimum, all jobs are inspected prior to processing and again before shipping. We have woven our TQM system into every facet of our business. This keeps us on track with our unrelenting quest for excellence and continuous improvement.

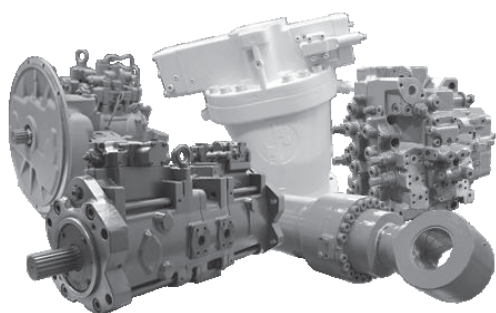

Service Exchange

To minimise our clients downtime, we maintain an extensive inventory of service exchange cylinders and pumps compatible with most leading brands. Our selection includes;

- ✓ K3V112 Pumps
- ✓ K3V140 Pumps
- ✓ K3V180 Pumps
- ✓ CAT 140G
- ✓ CAT 140H
- ✓ Hitachi 670
- ✓ CAT TLB Cylinders
- ✓ CAT 320 Cylinders
- ✓ JCB 3 CX Cylinders
- ✓ Rexroth A10v & 4 VG Series
- ✓ and many others.

Our Brand Promise

Interwoven in our brand is a deep understanding and appreciation that quality service is how we forge lifelong partnerships with our clients. Surpassing your expectation is our driving force and keeping you first means being proactive, solving your problems in a transparent, timely and trustful manner.
